Fruit Tree Chill Hours Chart

The chill hours 11 fruits need, from the lowest to the highest cited variety figure.

Each bar runs from the variety with the lowest chill-hour need to the one with the highest, across 135 varieties with a published or nursery-cited figure (estimates are left out). Write your ZIP's chill hours in the box and draw a line down the chart: a fruit whose bar starts to the left of your line has at least one variety that suits your winters.

My chill hours

Each fruit's own chill-hours chart lists its varieties one by one, lowest need first.

My trees

Tree	Chill hours it needs	My winter's chill hours	Enough? (yes / no)
