Peach Chill Hours Chart

28 peaches, lowest chill-hour need first, from published and nursery-cited figures.

A variety flowers and fruits well when your winter gives at least the chill hours it needs. Estimated figures are left out. Write your ZIP's chill hours in the box and draw a line down the chart at that number: varieties to the left of it suit your winters.

My chill hours

Variety	0	200	400	600	800	1,000	Hours
☐ UFSun							100
☐ Eva's Pride							100–200
☐ Flordaprince							150
☐ TropicBeauty							150
