Plum Pollination Chart

19 plums in bloom groups, early to late, with a partner grid on page 2.

Trees in the same or a neighboring bloom group flower at the same time and can pollinate each other. Check off the trees you grow or plan to buy, then check that each has a partner in its own group or the next one. The kind of plum matters too: European plums pollinate only European plums. Japanese plums take pollen from Japanese plums or hybrids, hybrids from other hybrids, and pluots from pluots or Japanese plums.

Group 2

- ☐ Beauty J
- ☐ Methley J

Group 3

- ☐ Alderman H
- ☐ Burgundy J
- ☐ Dapple Dandy P
- ☐ Elephant Heart J
- ☐ Flavor Grenade P
- ☐ Flavor King P
- ☐ Flavor Supreme P
- ☐ Santa Rosa J
- ☐ Satsuma J
- ☐ Shiro J
- ☐ Superior H
- ☐ Toka H

Group 4

- ☐ Blue Damson E *
- ☐ French Improved Prune E *
- ☐ Green Gage E *
- ☐ Italian Prune E *
- ☐ Stanley E *

* self-fertile: crops alone, better with a partner E European, J Japanese, H American-Japanese hybrid, P pluot

Plum Pollination Chart

Which plums pollinate each other: 19 varieties.

Find the tree you want fruit on in the left column and read across. A check mark means the variety at the top of that column can pollinate it: a partner the sources name for it, or a tree that blooms with it. Pairs the sources call incompatible are left out. Numbers across the top match the numbers down the side.
